About the project

This is a public welfare project, dedicated to making every stray dog have food, and hope to give every stray dog a house. Our dream is that all dogs in the world can be happy, and everyone loves dogs.

This project brings together many hot spots nowadays: games, NFT, Web3.0, virtual and reality.

Imagine how happy you can protect a dog through cryptocurrency and games!

NFT-NFT **casting** platform

- This is a platform where you can cast your own NFT
- You can design your own dog food here
- The designed dog food can be bought and sold on the NFT market. It can also be used in games. Our assumption is that NFT dog food can improve the level of dogs in the game.
- The platform for casting NFT is divided into the following levels according to the casting cost and casting time
- **Puppy food** (low casting cost, short time, low experience value)
- **Medium dog food** (medium casting cost, medium time, medium experience value)
- **Big dog food** (long casting cost, long time, rich experience value)
- **Special dog food** (the casting cost is very low, the time is very short, and the experience value is random)
- A certain amount of book renewal fee will be charged for each casting

NFT-NFT trading platform

- As the name suggests, this is a platform that provides NFT transactions
- Collectors can trade the minted NFT through this platform.
- A certain amount of handling fee will be charged for each transaction.
- The handling fee will be used for public welfare undertakings!
- **For one transaction of puppy food**, 50% of the handling fee will be used for public welfare.
- **For one transaction of Chinese dog food**, 60% of the handling fee will be used for public welfare.
- **When you trade big dog food once**, 70% of the handling fee will be used for public welfare.
- One transaction of **special dog food**, 100% of the handling fee will be used for public welfare.

GameFi

- This is a game to train dogs.
- Players can use the NFT casting platform to forge dogs, dog food and kennels.
- The successfully minted NFT can be used in the game.
- The purpose of this game is to let the dog have a home!
- When a dog reaches level 80, we will donate a kennel and a bag of dog food to charity organizations.
- Of course, players who play this game can also receive token rewards.
- During the game, you can use dogefood tokens to upgrade your dog and learn skills to improve your dog's abilities.
- When the dog completes a growth task, you will be rewarded with generous tokens.

Public welfare

- The essence of this project is a public welfare project
- The main reason is that every stray dog on the earth has food and a house.
- So we combined the concepts of NFT and GameFi,
- Incorporate public welfare into it
- Players will charge a certain amount of public welfare fund for every transaction/forging/cultivation/upgrade
- We will regularly summarize the public welfare fund A large-scale donation is made every quarter.
