About the project

This is a charity dog protection project. We are committed to making a dog charity organization to help every stray dog build their home.

This project will gather: NFTs, gamefi, mining, swap concepts.

We are building a strong community in the beginning of the DogeFood, finding more consensus in order to stabilize the team funding for further development of Dog charity.

DOGEFOODWHITEPAPER

DOGEFOODWHITERPAPER

DOGEFOOD Ecosystem

- DOGEFOOD GameFI
- \$DOGEFOOD token is the only governance token in the entire DogeFood ecosystem .
- Player can gain profit in the DogeFood Game during the process.
- DogeFood Decentralizing Marketplace
- All of the Dogefood related crypto, including NFTs,token can be trade in the Marketplace, Decentralized from the exchange.

GameFi

DogeFood GameFi plan

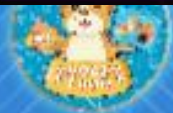

This is a metaverse Doge game
You can adopt a dog through our game by consuming your DogeFood token, as a result of creating a NFTs doge.

DogeFood Token will be able to purchase food, house, clothing for your own doge in our game.

P2E concept will be inserted in the game by Doge competition .

The ultimate goal is raise the value of your personal doge and therefore valuable in the NFTs marketplace.

Every holder of DogeFood will be able to earn their profit by selling of NFTs.

DOGEFOODHITPaper

Charity

- The essence of this project is a public welfare project
- Help dog in real life by donation funding to charity organization.
- Combining the concepts of NFT and GameFi, revenue of the project can be allocated to charity funding.
- We will regularly summarize the public welfare fund and A large-scale donation will be made every quarter.
